NECS/EACD/Notification/2022/༩༩༨

May 25, 2022

Feedback for Environmental Clearance Service delivery

One of the core mandates of the National Environment Commission Secretariat (NECS) is administering the Environment Assessment process and issuance of environmental clearance (EC) for projects in accordance with the Environmental Assessment Act 2000 and its Regulation 2016. The NECS has always strived to serve our project proponents with the highest standards of competency, integrity and efficiency in ensuring an effective EC service delivery without compromising the principles of environmental assessment.

To further enable us to improve our EC service delivery, the NECS would like to welcome feedback from our project proponents. Towards this purpose, an online feedback system has been instituted which can be accessed on NECS web (i.e. titled as 'Feedback on EC service delivery at www.nec.gov.bt). Furthermore, proponents who wish to provide paper-based feedback can download the form (available under the 'Other forms' of the Forms category at www.nec.gov.bt) and place it in the suggestion box available at NECS office, Langjophakha.

Therefore, NECS would like to urge our valued project proponents to provide your constructive feedback which in turn will contribute towards enhancing the EC service delivery and environmental process at large.

(Sonam P. Wangdi)
SECRETARY
